from the Chief Engineer, Bangalore.

1 The proposal is to transfer the Choddali-Mahadeswara Matai Road which is 20 miles in length to the temple authorities of Mahadeswara Swamy Devasathanam, Kollegal on the condition that the annual maintenance would be attended to by the temple authorities and the Forest Dept has to pay annual contribution of not less than Rs 3000 ^{part towards annual maintenance} and the road being kept open for the Forest Dept for its use.

p 8/13.

2 From the letter of 16-9-59 from the Executive Officer, Mahadeswara Swamy Devasathanam, Kollegal, it is seen that the road in question was formed by the Forest Dept with 75% contribution ^{from the} temple fund and 25% only by the Forest Dept. For annual maintenance also the temple authorities contribute 75% of the cost. The road ~~is~~ ^{is} ~~to be~~ ^{is} maintained in good condition.

with the interest of easy traffic and safe journey by the public and the pilgrims. The temple authorities are flying their own buses daily.

and thus large exps.

As seen from the letter at p. 31es the temple authorities have paid about Rs 50,000/- to the Forest Dept towards maintenance, the share of the temple authorities being 75% of the total exps incurred on maintenance. So the Forest Dept might have incurred Rs 25,000/- as their share of exps on maintenance. i.e. ~~25,000~~ 25,000 for about 6 years.

Roughly the share of the Forest Dept towards maintenance of the woods come to Rs 4,000/- approx. and the exps on maintenance would be to the tune of Rs 10,000-12,000/-.

The proposal of the C.E. seems to be ~~very~~ acceptable with the condition mentioned at para 3 supra.

11 The proposal for taking over the road has arisen as the temple authorities feel that the road is not being maintained properly. The maintenance may be entrusted to the Temple on payment of the usual contribution of Rs.3000/- or $\frac{1}{3}$ of the actual expenditure whichever is less. ^{sd-} U.S.C.

12 It will have to be made very clear that the Road is handed over to the temple authorities for maintenance only and subject to the annual contribution of Rs.3000/- or $\frac{1}{3}$ of the actual expenditure whichever is less (and not Rs.3000/- minimum as suggested by the temple authorities). Recently Minister P.W.D. talked to me about taking
over the road under P.W.D. If P.W.D. takes over the
road there will be no problem left over for handing it
over to Temple authorities. It may be ascertained
from P.W.D. whether there is any more to take over the
road before finally agreeing.

20 On the PWD File No. PWD 54 CRM 60, orders have
been issued to the Superintending Engineer, Mysore
Circle to get up an estimate for the road between

~~and Talabetta and Mahadeswara hills~~ ^{being limited}
~~to Rs. 21 lakhs.~~ It has also been
ordered that the work may be commenced immediately
if plans and estimates are ready, ^{limiting the outlay to Rs. 21 lakhs.} It has also been
proposed to convert the road from Gowdahalli to Palar
via Talabetta and Mahadeswar hills into a State
Fund Road.

21 It has also been proposed in that file that
the Forest Department should contribute $\frac{1}{3}$ of the
cost of this work. The estimated cost of this work
for metalling and black topping of this Section of
21 miles as prepared some time back, was Rs. 9.5 lakhs.
This estimate was returned for being recast at the
current schedule of rate. The Department has under-
taken ^{Survey} detailed ~~of~~ of the road and ~~survey~~ for a Sec-
tion of 10 miles has also been completed and the re-
maining ^{Survey} work is in progress.

22 The Forest Department has noted in reply to the

M 258/60

A The question of financing Kowdalli-

Talabetta - Mahadeswaraswamy Hills road in Mysore District, was discussed with the Hon'ble Minister for Forests. The Chief Conservator of Forests and the Chief Engineer were also present. The original estimate is about Rs.9.00 lakhs. Shri Mahadeshwaraswamy Temple Authorities have agreed to give Rs.3.00 lakhs. The balance of Rs.6.00 lakhs has to be provided by the P.W.D. and Forest Department.

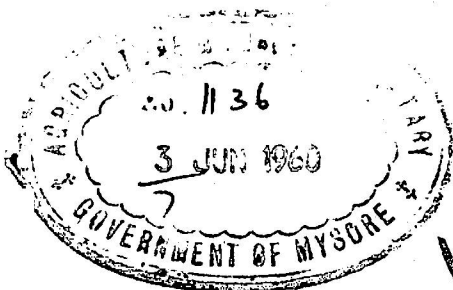

30 After discussion, it was agreed that the Forest Department should contribute Rs.2.00 lakhs and keep it at the disposal of the P.W.D. and that the balance should be met by the P.W.D. The Minister for Forests desires that the road may be taken over by the P.W.D. for maintenance and it is agreed to. Orders may issue with the concurrence of the Hon'ble Minister for Forests and Transport.

cations", out of the provisions to be made therefor additionally to the Department for the year 1966-67. Since the allotment of above 2.00 lakhs under the above head for the year (1966-67) does not include this expenditure, he requests Government's sanction for an additional allotment of Rs. 8.00 lakhs to his Department under the above budget head for the current year.

81) But in this connection as per Government letter at page 13 c.f., the C.C.F. was asked to send suitable proposal for contribution of Rs.2 lakhs for the construction of Road. But in his proposal dated 19th May 1966 at page 31 c.f. he has requested an additional grant of Rs.8 lakhs during 1966-67. At no stage was it conceded by the A & F. Department that Rs. 10 lakhs should be met by the Forest Department. As such he was asked to clarify his proposals. In reply the C.C.F. has intimated that the additional grant of Rs. 8 lakhs under the budget head " 119 Capital Outlay - (2) Development of Communications " was sought in his letter dated 19-5-1966 only to meet the proposed contribution to the extent of Rs. 8 lakhs as proposed in our letter dated 4-8-1960. As Rs. 2 lakhs sanctioned already was requested for other purposes and the advancement of Rs. 8 lakhs was asked by him for this specific purpose.

82) In this connection it is submitted that according to the revised estimate drawn up during 1960, the cost of the road is said to be Rs. 25 lakhs - Page 17 c.f. The present cost would be still higher. Hence it is better to request P.W.D., to obtain fresh estimates and requesting them to meet a major portion of the cost, the Forest Department contributing only a token amount.

to temple authorities.

.....

I submit herewith a copy of the letter No.H.PR.

188/59-60 dated 16th October 1959 from the Deputy Commissioner, Mysore District received through the Conservator of Forests, Coorg regarding the above mentioned subject for favour of perusal. The road is said to be 20 miles in length and the temple authorities are willing to take over the road for maintaining it in a good ~~(trackable)~~ condition in the interest of the pilgrims and the devotees visiting the temple. The Conservator of Forests is of opinion that the road may be transferred to the temple authorities subject to the condition that the road should be maintained in good condition allowing the Department its use receiving an annual contribution of Rs.3000/-. I agree with the view expressed by the Conservator of Forests Coorg.

I request that sanction of Government for the transfer of the road to the temple authorities may be kindly obtained and communicated to me at an early date.

Yours faithfully,

Subject:-Ghat road leading from Cowdahalli to Mahadeswaran Hills - Taking over by the Temple from the Forest Department - Maintenance by the temple - Proposals submitted.

.....

B I write to state that the ghat road leading from Cowdahalli Chengadi Junction to Mahadeswaran Hills was from ~~xxx~~ by the Forest Department with 75% contribution from the temple funds and 25% contribution from the Forest Department, according to an agreement entered with the Forest Department by the Ex-Trustees of this temple on 28-9-1948. The temple has borne Rs.1,06,000/- and the Forest Department has borne, Rs.36,000/- over the formation of this road. The formation of this road was completed and opened in the year 1953 and subsequently the temple has also borne 75% of the maintenance charges every year up to this date. An approximate sum of Rs.50,000/- has been paid to the Forest Department as maintenance charges so far and in spite of which the condition of the road has not improved, up to the mark. Now that the temple buses are being plied on the road daily, it is found absolutely essential to effect repairs to the road perfectly so as to ensure easy traffic and safe journey by the public and the pilgrims.

So it has been proposed to take over the road leading from Cowdahalli to Mahadeswaran Hills by the temple from the Forest Department and to execute daily repairs by the temple by engaging a Supervisor and Gang coolies.
